(d) if so, what was that norm and the amount of annual profit as per that norm?

THE MINISTER OF POWER (SHRI P.M. SAYEED): (a) As per information made available by Government of NCT of Delhi no such loss has been estimated.

(b) Does not arise.

(c) and (d) Yes, Sir. According to the provisions of the Transfer Scheme and Policy directions issued by the Government of National Capital Territory of Delhi, Distribution Companies (DISCOMS) in Delhi were allowed assured 16% return on equity and free reserves. However, this amount is allowed to DISCOMS as expenses by DERC while approving the Annual Revenue Requirement on year-to-year basis.

Power projects in the country

†355. SHRI P.K. MAHESHWARI: Will the Minister of POWER be pleased to state:

(a) the State-wise details of power projects running in the country; and

(b) the State-wise details of gap between power generation by these power projects and consumption thereof?

THE MINISTER OF POWER (SHRI P.M. SAYEED): (a) State-wise details of power projects running in the country are given in Annexure *[See* Appendix 2002 Annexure No. 1]

(b) State-wise power supply position for the period April-June, 2004 is given in the enclosed Statement.

Statement

State-wise power supply position for the period April-June, 2004
Actual power supply position

Power supply to commercially important cities

356. SHRI EKANATH K. THAKUR: Will the Minister of POWER be pleased to state:

(a) whether it is a fact that power disruptions across half a dozen business cities in the country are so frequent that annual losses suffered by India Inc. are projected to be Rs. 22,000 crore;

(b) whether according to the November MAIT-Emerson survey of 302 firms across eight critical industry segments, power disruptions are a daily affairs in Delhi, Bangalore, Chennai and Mumbai except in Kolkata and has an adverse impact on employee productivity, work in progress, management time and customer delivery; and

(c) if so, the steps Government propose to take to provide uninterrupted power supply to commercially important cities?

THE MINISTER OF POWER (SHRI P.M. SAYEED): (a) to (c) While electricity is a concurrent subject, the supply and distribution of electricity within a State is the responsibility of the State Government/State Power Utility concerned which decides the priorities of power supply to various categories of consumers/cities/areas in the State. Government of India supplements the efforts of the State Governments in generation by setting up of power plants through Central Public Sector Undertakings in Central Sector.

Central Electricity Authority (CEA) collects the information from State Power Utilities in respect of total outage duration, number of trippings per feeder in respect of 11 KV feeders of towns with population more than 8 lakhs and works out the reliability index for these feeders with the objective of improving power supply to various categories of consumers.
